

🇬🇧 SSSSB Story 055a: Why dont everyone love me? [5-12 years]

Two friends were talking during playtime.

Girl A said: *"Sometimes I wish all my classmates liked me and thought I was a good example. But I don't know how to do that."*

Girl B replied:

"I feel the same! I already tried three things, but they didn't work:

- 1. I run very fast in the playground to show I'm the best, but that didn't make me more loved.*
- 2. I shout the answers in class before others can, but that didn't make me more loved.*
- 3. I always want to choose the game we play, but that didn't make me more loved.*

What else should I do? How can I make everyone like me? Nothing I try is working."

The girls remembered something they had learned at SSSSB:

"The best way to be loved by others is to be kind, to listen, and to care about their feelings. That is how true friendship and love grow."

The girls smiled. They understood that real inspiration comes from kindness and from the heart.

Question: What one thing you can to so that your friends like you?

Heart-Work: Practice values like kindless, help, respect daily. After some time, share your experience.
