

## 🇬🇧 SSSSB Story 067a: Is the SSSSB Class Fun? [5-12 years]

Two friends, both eight years old, were full of questions. They often saw children from the **Shree Sanjay Sai Soul Blossom (SSSSB) classes** at school and in their neighborhood.

These children always seemed special. They spoke kindly, shared their things, and helped others without being asked. They smiled often and showed good manners wherever they went.

The two friends whispered to each other: “**Why are they so kind and friendly? Why do they look so happy and confident?**”

Day by day, their curiosity grew. They wondered what happened inside the SSSSB classes. Were they just like ordinary lessons, or was there something more, are they fun?

Finally, the friends decided: “**Let's ask someone to tell us more about the SSSSB class. Then we will understand why it makes such a difference.**”

**Question:** Why do you think that SSSSB children are kind and helpful?

**Heart-Work:** What do you think is the most beautiful thing about the SSSSB class, and what else do you like about it?
