

Happy Birthday
Guru Daju

*On the auspicious day of guru daju I would like to tell him
Many Many Happy Returns Of His Day*

- ▶ *Guru daju many many happy returns of the day you are the guru who can start this program and can continue the still now. You are the guru who can be like friend guru parents teacher and all the things in this world. He can become a person how we want. I have many experience is with him in this class he have blossomed our soul and make us as good as he is if he have have not come to my life by this class then I think that I cannot get this type of good knowledge with you have given and this type of moral values which I know from this class. He also made the way to make our life to a better place.*

Who is he? And How much precious is he?

He is a priceless, diamond-like gift sent to us by Bhagwan Baba through our class. It feels as if Baba sent him to Earth as an angel to connect us to spirituality through self-development. Because of him, I have been able to boost my inner strength and learn how to speak in front of many people. Today, I have developed the courage to address large gatherings

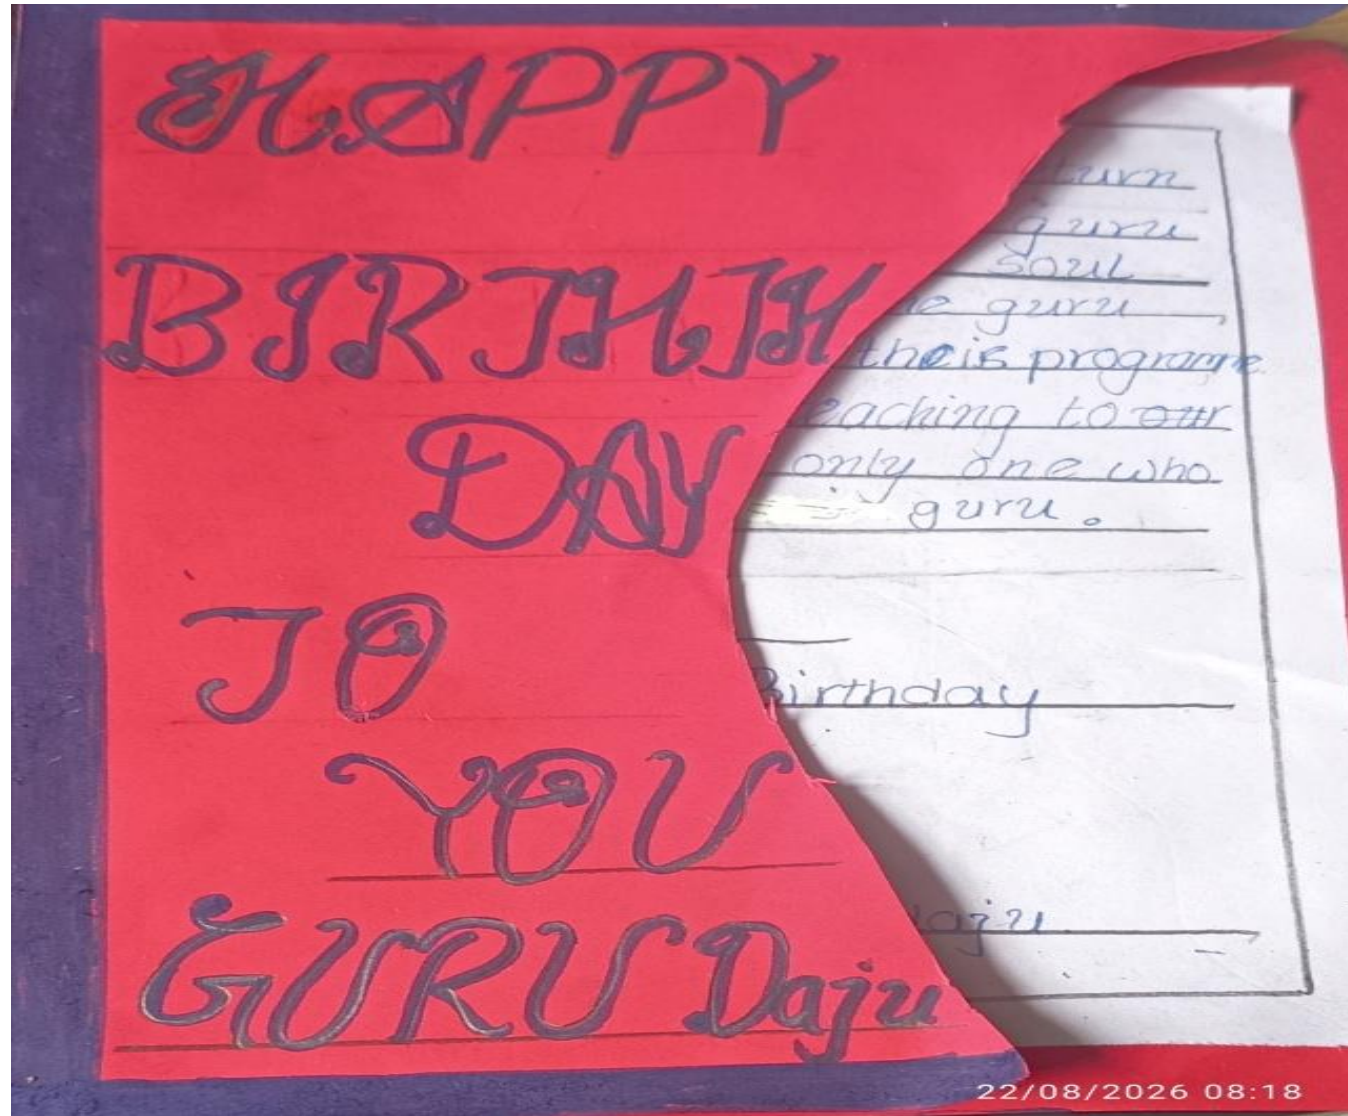

What did he teaches

- ▶ *I am learning to move forward in life by putting into practice the values taught in class. Whenever I am about to do something wrong, I instantly recall what I learned in the self-development class, realize that it is not my true path, and choose the right direction again. On the birthday of such a Guru—who leads us away from bad paths, brings us to the good path, and guides us toward good conduct*

*My warmest wishes with this
greeting card. I wish to express*

► May we get to celebrate hundreds of such birthdays together. Millions of birthday wishes to our dear Guru Daju!

▶ THANK YOU
