

🇬🇧 SSSSB Story 049b: The Land Withoug Ministers [13+ years]

Once upon a time, there was a land where great unrest reigned. The king and the queen were urgently looking for four new ministers: a Minister of health; a Minister of Education; a Minister of Family Affairs; and a Minister of Sports and Games.

But there was one special condition: the new ministers had to be people who had once attended the SSSSB lessons. Because only such people would understand the true teachings of love, kindness and respect.

So, the people of the land set out to search.

They traveled for nine days with hope in their hearts. Some walked on foot, others pedaled bicycles with squeaky bells. Some galloped on horses, others drove cars or motorbikes. Some even soared in helicopters or sailed in boats. They searched high in the mountains with binoculars, low in the valleys, behind trees, under benches, even inside cookie jars!

But no SSSSB class and no SSSSB family member could be found.

Disappointed and exhausted, they returned home. At the palace, the king and queen stood waiting on the balcony. But the people cried out:

“Your Majesty, we have searched for nine days, in every corner of the land, but we found no one!”

The king and queen closed their eyes and prayed. They said “If we cannot find them here, we must look beyond our borders. God’s family is greater than one land.”

They discovered the names of all the SSSSB family members around the world– and yes, your name was there too!

The king and queen smiled and declared: “You are chosen to become one of our ministers. In God’s creation, every child is equal, every voice matters, and kindness is the greatest subject of all.”

Question and Heart-Work: Imagine that you were chosen to become one of these four ministers – Minister of Health- Minister of Education – Minister of Family Affairs – Minister of Sports and Games, which minister you would like to be and why.
