

Friend 1: I often wonder how people become successful in life. Is success only for those who are very intelligent?

Friend 2: Intelligence helps, but it is not the most important factor. Many talented people often fail because they give up too easily. True success comes from having a clear goal and making steady efforts every day.

Friend 1: But sometimes I study hard and still don't get the results I expect. Then I feel disappointed.

Friend 2: Don't give up. Failure is often a steppingstone to success because it teaches us what we need to improve. Every mistake becomes a lesson when we learn from it.

Friend 1: So, what should we do when we fail?

Friend 2: Learn from mistakes and keep moving forward. Every challenge is an opportunity to grow. If we keep trying with faith, patience, and determination, we will gradually move closer to our goal.

Friend 1: That means we should stay focused on our goal?

Friend 2: Exactly! Set a goal, make a good plan, and work on it every day. Even small efforts made consistently can bring great results over time.

Friend 1: I understand now. Success is not about working hard for only one or two days.

Friend 2: Yes. Success comes through continuous effort, patience, self-discipline, positive thinking, and the courage to never give up.

Friend 1: Where did you learn all these wonderful things?

Friend 2: Every Saturday, I attend **SSSSB classes**. Our Gurus teach us human values and inspire us to practise them in daily life. They remind us that true success is not only about getting good marks, earning money, or becoming famous. True success is becoming a good human being, serving others, and bringing out the divinity within us. By practicing values, we develop good character, inner peace, self-confidence, and compassion, helping us lead a happy and meaningful life.

Friend 1: That's beautiful. From today, I will set a clear goal, try to stay focused, and work towards it consistently and also try to practice values - help, kind, respectful, disciplined.

Friend 2: My Gurus also teach us that when we combine hard work with good character, Swami's grace supports us.

Heart-Work: Practise hard work, perseverance, and self-discipline in one area of your life for a week. Then share your experience with others.
