English Version – Physical Class Game – The Silly Prosperity Machine - SSSSB Story 108

How to Play

Tell the children: "Oh no! The Prosperity Machine has stopped working! We must fix it together!"

One child starts by making a funny action and sound: "Boing! Boing!"

The next child joins and adds another action: "Dig! Dig!"

The next child adds: "Plant! Plant!"

Others continue adding funny actions: **Teaching children. Helping grandparents. Sweeping roads. Building houses. Sharing food. Watering plants.**

Each child repeats all the previous actions before adding a new one.

Soon everyone is laughing, hopping, digging, planting, teaching, sweeping, and making silly sounds together!

When all children have joined, the facilitator shouts: **"The Prosperity Machine is working!"**

Everyone spins in a circle and chants: **"Help one another! Create opportunities! Work together! Prosper together!"**
